HEADER... LICENSES AND PERMITS

Utah Admi... *Utah Code § 23-19-1*

Intro Parag... Obtaining a fishing license is the first step to fishing in Utah. If you're under the age of 12, you don't need a license to fish unless you want to fish with two poles or use a setline. If you're 12 years of age or older, you must buy a license before you can fish. This section provides information about the different licenses that are available.

Headers 10... Free Fishing Day

Utah Admi... *Utah Code § 23-19-1 and Utah Admin. Code R657-13-3*

Paragraph ... The one day you don't need a license to fish in Utah is Saturday, June 7, 2008, which is Free Fishing Day. Everyone in Utah can fish for free that day, but please remember that all of the other fishing laws and rules in Utah still apply.

Headers 10... Under 12 years of age

Utah Admi... *Utah Code § 23-19-21 and Utah Admin. Code R657-13-3*

Paragraph ... If you're under 12 years of age, you do not need a fishing license to fish in Utah. You can fish without a license and take a full bag and possession limit.

Paragraph ... The only exceptions are if you'd like to fish with a second pole or a setline. If you're under the age of 12 and would like to fish with either a second pole or a setline, you must purchase a Utah fishing or combination license and a second pole or setline permit. Please see page 10 of this guide for more information about second pole and setline permits.

Headers 10... 12 years of age and older

Utah Admi... *Utah Code § 23-19-21*

Paragraph ... If you're 12 years of age or older, you must purchase a fishing license or a combination license to fish in Utah. You can choose from four different licenses:

Bullets One-day licenses allow you to fish for one day.

Bullets Seven-day licenses allow you to fish for seven consecutive days.

Bullets 365-day licenses allow you to fish for 365 consecutive days,

including the day you buy the license.

Bullets

If you also want to hunt upland game or waterfowl, you may want to buy a combination license. A combination license allows you to fish and hunt upland game and waterfowl in Utah. When you buy a combination license, you also get a price break compared to buying a hunting and fishing license separately. Combination licenses are 365-day licenses that allow you to fish for 365 consecutive days, including the day you buy the license.

Paragraph ...

Fishing and combination licenses are available at *wildlife.utah.gov* and from license agents and Division offices.

Paragraph ...

You must have your license with you while you're fishing, and you cannot alter your license or transfer it to another person.

Fishing across state lines (interstate waters)—reciprocal fishing permits

Utah Admi...

Utah Admin. Code R657-13-5

Paragraph ...

Three waters—Bear Lake, Flaming Gorge and Lake Powell—are located in Utah and another state. Utah, Idaho, Wyoming and Arizona have entered into the following agreements to allow anglers to fish across state lines:

Headers 10...

Bear Lake ▲

Paragraph ...

If you have a valid Utah fishing or combination license, or a valid Idaho fishing or combination license, you can fish anywhere on Bear Lake that's open to fishing with one fishing pole. With the purchase of a valid Utah fishing or combination license and a Utah second pole permit, or a valid Idaho fishing or combination license and an Idaho two-pole permit, an angler may fish with two poles anywhere on Bear Lake that is open to fishing. A second pole or two-pole permit must be purchased from the state of original license purchase.

Headers 10...

Flaming Gorge Reservoir

Paragraph ...

To fish across state lines at Flaming Gorge, you must have a valid fishing license from one state and a reciprocal fishing permit from the other state. For example, if you buy a Utah resident or nonresident fishing license, you can fish the Utah portion of Flaming Gorge. After buying your Utah license, if you decide you also want to fish the Wyoming portion of the reservoir, you must buy a Wyoming reciprocal fishing permit.

Paragraph ...	Information about where to obtain a Wyoming reciprocal fishing permit is available by calling the Wyoming Game and Fish Department at (307) 777-4600.
Paragraph ...	Utah reciprocal fishing permits are available at <i>wildlife.utah.gov</i> and from Utah Division of Wildlife Resources offices and license agents that sell Utah fishing licenses.
Headers 10...	<i>Lake Powell</i>
Paragraph ...	Reciprocal fishing permits for Lake Powell are available to Utah and Arizona residents only. To fish across the state line at Lake Powell, a resident of Utah or Arizona must have a valid fishing license from one state and a reciprocal fishing permit from the other state. For example, to fish the Arizona portion of the reservoir, a Utah resident needs a Utah resident fishing or combination license and a reciprocal fishing permit from Arizona.
Paragraph ...	Utah residents may obtain an Arizona reciprocal fishing permit at <i>gf.state.az.us</i> . Arizona residents may obtain a Utah reciprocal fishing permit at <i>wildlife.utah.gov</i> and from Utah Division of Wildlife Resources offices and license agents that sell Utah fishing licenses.
Paragraph ...	If you're not a resident of either state, you must purchase a Utah nonresident fishing license to fish the Utah portion of Lake Powell and an Arizona nonresident license to fish the Arizona portion of the reservoir.
Headers 10...	<i>More information about reciprocal permits</i>
Bullets	Utah reciprocal fishing permits are valid for 365 days from the day you buy them.
Bullets	You must sign your name on your reciprocal permit the same way you signed your name on your fishing license.
Bullets	You are subject to the laws and rules of the state in which you're fishing.
Bullets	Only one bag limit may be taken and held in possession, even if you're licensed to fish in both states.
Headers 10...	Fishing contests
Utah Admi...	<i>Utah Admin. Code R657-13-4</i>
Paragraph ...	You can hold a fishing contest in Utah, but there are several rules you must follow. To learn more, please see Utah Admin. Code R657-13-4 at <i>wildlife.utah.gov/rules</i> or contact the nearest Division office.

Headers 10...	Special resident licenses
Utah Admi...	<i>Utah Code § 23-19-36</i>
Paragraph ...	If you're a Utah resident and have certain physical or mental disabilities, or have a terminal illness, you may qualify for a free fishing license. A child who has been placed in the custody of the state by a court order may also qualify. To learn if you qualify, please see Utah Code § 23-19-36 at <i>wildlife.utah.gov/rules</i> or contact your nearest Division office.
HEADER...	FISHING METHODS
Utah Admi...	
Intro Parag...	Several laws and rules have been put in place in Utah to ensure fishing is done ethically and to keep fishing in Utah great for everyone. Please be familiar with the following rules for taking fish and what you're required to do with the fish you take.
Intro Parag...	To help the Division fulfill its responsibility as trustee and custodian of Utah's fish and wildlife, Division conservation officers monitor the taking and possession of fish, and the required licenses and equipment used for fishing. Anglers should expect to encounter conservation officers and biologists checking anglers at waters and at checkpoints across Utah.
Intro Parag...	If you're contacted by a conservation officer, you must provide the officer with the items he or she asks for, including any licenses required for fishing, any devices used to participate in fishing and any fish that you've taken. These contacts allow the Division to collect valuable information about fish populations in Utah.
Headers 14...	General fishing rules
Paragraph ...	This section provides the general rules for taking fish and crayfish in Utah. Exceptions to these rules are provided in the Rules for Specific Waters section that begins on page 13.
Headers 12...	Game fish may be taken only by the following methods:
Headers 10...	Angling
Utah Admi...	<i>Utah Admin. Code R657-13-6</i>
Bullets	You may not fish with more than one fishing line unless you're fishing for crayfish or have a second pole or setline permit. Please see page 11 of this guide for more information about fishing for crayfish. Information about fishing with a second pole

is available on page 10. Information about fishing with a setline is available on page 10.

Bullets While fishing, you must be within sight of the equipment you're fishing with (this distance cannot exceed 100 feet). The only exception to this rule is if you have a setline permit. Please see page 10 for more information about fishing with a setline.

Bullets No artificial lure may have more than three hooks.

Bullets No line may have attached to it more than two baited hooks, two artificial flies or two artificial lures. The only exceptions to this rule are if you're using a setline or you're fishing at Flaming Gorge Reservoir or Lake Powell. Please see page 10 of this guide for more information about fishing with a setline. Information about fishing at Flaming Gorge is available on page 16, and information about fishing at Lake Powell is available on page 18.

Bullets When you're fishing through the ice, you may not fish through a hole that's more than 12 inches wide. The only exceptions are at Bear Lake, Flaming Gorge Reservoir and Fish Lake. For more information about ice fishing at these waters, please see the section of this guide entitled Rules for Specific Waters.

Headers 10... Bait

Utah Admi... *Utah Admin. Code R657-13-12*

Paragraph ... Several rules pertain to the use of bait in Utah:

Bullets Use or possession of corn, hominy or live baitfish while fishing is unlawful. Use or possession of tiger salamanders (live or dead) while fishing is unlawful. Use or possession of any bait while fishing on waters designated artificial fly and lure only is unlawful. Use or possession of artificial baits which are commercially imbedded with or covered over in fish or fish parts is unlawful. Fish or their parts may not be used as bait, except for the following. Use or possession of fish or fish parts not specifically identified below is unlawful.

Bullets Dead Bonneville cisco may be used as bait only in Bear Lake

Bullets Dead yellow perch may be used as bait only in: Deer Creek, Echo, Fish Lake, Gunnison, Hyrum, Johnson, Jordanelle, Mantua, Mill Meadow, Newton, Pineview, Rockport, Starvation, Utah Lake, Willard Bay and Yuba reservoirs.

Bullets Dead white bass may be used as bait only in Utah Lake and The

Jordan River.

Bullets Dead Shad, from Lake Powell, may be used as bait only in Lake Powell. Dead shad must not be removed from the Glen Canyon National Recreation Area.

Bullets Commercially prepared salt water species such as sardines and anchovies may be used as bait in any water.

Bullets Dead mountain sucker, white sucker, Utah sucker, redbside shiner, mottled sculpin, fat head minnow, Utah chub and common carb may be used as bait in any water.

Bullets The eggs of any species of fish, except prohibited fish, may be used.

Bullets Use of live crayfish for bait is legal only on the water where the crayfish is captured. It is unlawful to transport live crayfish away from the water where captured.

Bullets Manufactured, human-made items that may not be digestible, that are chemically treated with food stuffs, chemical fish attractants, or feeding stimulants may not be used on waters where bait is prohibited.

Headers 10... Restrictions on taking fish and crayfish

Utah Admi... *Utah Admin. Code R657-13-11*

Paragraph ... You can use artificial light while fishing unless you're underwater spearfishing, in which case you cannot use artificial light.

Paragraph ... You may not obstruct a waterway or use any chemical, explosive, electricity, poison, crossbow, firearm, pellet gun or archery equipment to take fish or crayfish. The only exceptions are found in the Taking Nongame Fish section of this guide (page 11) and the Rules for Specific Waters, Lake Powell, on page 18.

Paragraph ... You may not take or land a fish by snagging or gaffing, and you may not have a gaff in your possession while fishing. The only exception is Lake Powell, where gaffs may be used to land striped bass.

Paragraph ... Chumming is prohibited on all waters except Lake Powell (chumming means to dislodge or deposit into the water any substance, not attached to a hook, line or trap, which may attract fish.) Please see the Rules for Specific Waters, Lake Powell section, on page 18 for more information about chumming at Lake Powell.

Paragraph ... On some waters, you cannot fish from a float tube or a boat

(please see the Watercraft Restrictions section on page 22 for more information). In addition to the rules in this guide, boaters should be aware that other agencies may have placed additional restrictions on the use of float tubes, nonmotorized boats or boats with motors at some waters in Utah.

Paragraph ... The rules for taking nongame fish and crayfish are found on page 11 of this guide.

Headers 10... Fishing with a second pole

Utah Admi... *Utah Admin. Code R657-13-7*

Paragraph ... If you have a valid second pole permit, and a valid fishing or combination license, you can fish with two poles at any water in the state during its open fishing season. You may keep only one limit of fish, however. A second pole permit does NOT allow you to keep two limits of fish.

Paragraph ... Second pole permits are available for \$15 at *wildlife.utah.gov* and from license agents and Division offices.

Paragraph ... A second pole permit is a 365-day permit, but you must also have an unexpired one-day, seven-day or 365-day Utah fishing or combination license in order to use it (a second pole permit is not valid unless it's accompanied by a valid fishing or combination license). Only the person to whom the second pole permit is issued can use the permit.

Paragraph ... If you're under 14 years of age and would like to fish with a second pole, you must have a valid one-day, seven-day or 365-day Utah fishing or combination license, and a second pole permit.

Paragraph ... When fishing with a second pole, you must be within sight of the equipment you're fishing with (this distance cannot exceed 100 feet).

Headers 10... Setline fishing

Utah Admi... *Utah Admin. Code R657-13-8*

Paragraph ... Setlines are lines that are anchored to a non-moving object and that are not attached to a fishing pole. If you obtain a setline permit, and a Utah fishing or combination license, you can use a setline to take fish from the following waters: the Bear River proper downstream from the Idaho state line, including Cutler Reservoir and outlet canals; the Little Bear River below Valley View Highway (SR-30); the Malad River; and Utah Lake.

Paragraph ... The following rules apply to setline fishing:

Bullets	You may not fish with more than one setline.
Bullets	A setline may not contain more than 15 hooks.
Bullets	When fishing with a setline, you must be within 100 yards of the surface or the bank of water you're fishing from.
Bullets	One end of your setline must be attached to a nonmoving object that is not attached to a fishing pole. Your setline must also have a legible tag attached to it that includes your name, address and setline permit number.
Bullets	While fishing with a setline, you can also fish with one fishing pole. If you have a valid second pole permit, you can fish with two fishing poles while you're also fishing with a setline.
Bullets	Setline permits are available for \$15 at <i>wildlife.utah.gov</i> and from license agents and Division offices.
Bullets	A setline permit is a 365-day permit, but you must also have an unexpired one-day, seven-day or 365-day Utah fishing or combination license in order to use it (a setline permit is not valid unless it's accompanied by a valid fishing or combination license).
Bullets	If you're under 14 years of age and would like to use a setline, you must have a valid one-day, seven-day or 365-day Utah fishing or combination license, and a setline permit.
Headers 10...	Dipnetting
Utah Admi...	<i>Utah Admin. Code R657-13-10</i>
Paragraph ...	You can use a hand-held dipnet to land game fish that you've legally taken by angling. However, you may not use a hand-held dipnet to take game fish. The only exception is at Bear Lake, where hand-held dipnets may be used to take Bonneville cisco.
Paragraph ...	When fishing for Bonneville cisco at Bear Lake, the opening of your dipnet may not exceed 18 inches. If you're dipnetting through the ice at Bear Lake, there is no restriction on the size of the hole you can drill in the ice. Please see the Rules for Specific Waters, Bear Lake section, on page 13 for more information.
Paragraph ...	You may also use a hand-held dipnet to take crayfish and nongame fish, except prohibited fish. For a list of fish that are prohibited in Utah, please see page 11 of this guide.
Headers 10...	Underwater spearfishing
Utah Admi...	<i>Utah Admin. Code R657-13-9</i>
Paragraph ...	Underwater spearfishing is permitted from official sunrise to

official sunset. Use of artificial light is unlawful while engaged in underwater spearfishing. Free shafting is prohibited while engaged in underwater spearfishing. Causey, Deer Creek, Fish Lake, Flaming Gorge, Jordanelle, Ken's Lake, Lake Powell, Lost Creek, Pineview Reservoir (with the exception of tiger muskie) Red Fleet, Steinaker, Starvation, Willard Bay and Yuba reservoirs are open to taking game and nongame fish by means of underwater spearfishing from June 1 through November 30, 2007. These are the only waters in Utah where underwater spearfishing for game and nongame fish is allowed except for carp. Lake Powell is open to taking carp and striped bass by means of underwater spearfishing from January 1 through December 31.

Paragraph ...

The underwater spearfishing bag and possession limit is the same as the bag and possession limit applied to anglers using other techniques in the approved spearfishing waters issued by the Utah Wildlife Board. Nongame fish may be taken by underwater spearfishing only in the approved spearfishing waters. Carp may be taken by means of underwater spearfishing from any water open to angling during the open angling season set for a given body of water.

Headers 10...

Trespassing

Utah Admi...

Utah Code §§ 23-20-14 and 23-20-3.5

Paragraph ...

While fishing or engaging in any wildlife-related activities, you may not:

Bullets

- enter upon privately owned land that is cultivated or properly posted without the permission of the owner or person in charge of the land;

Bullets

- refuse to immediately leave the private land if requested to do so by the owner or person in charge; or

Bullets

- obstruct any entrance or exit to private land.

Paragraph ...

"Cultivated land" is land that is readily identifiable as land whose soil is loosened or broken up for the raising of crops, land used for the raising of crops, or a pasture that is artificially irrigated.

Paragraph ...

"Permission" means written authorization from the owner or person in charge to enter upon private land that is cultivated or properly posted. Permission must include:

Bullets

- the signature of the owner or person in charge;

Bullets	the name of the person being given permission;
Bullets	the appropriate dates; and
Bullets	a general description of the land.
Paragraph ...	“Properly posted” means that “No Trespassing” signs or a minimum of 100 square inches of bright yellow, bright orange or fluorescent paint are displayed at all corners, fishing streams crossing property lines, roads, gates and rights-of-way entering the land. If metal fence posts are used, the entire exterior side must be painted.
Paragraph ...	You may not post private property you do not own or legally control or land that is open to the public as provided by Utah Code § 23-21-4.
Paragraph ...	In addition, it is unlawful to take protected wildlife or their parts while trespassing in violation of Utah Code § 23-20-14.
Headers 10...	Tribal Trust Lands
Paragraph ...	If you’re fishing on land that belongs to any of the Native American tribes in Utah, you must observe tribal regulations concerning the taking of fish. These regulations are available from the Native American tribe that owns the land.
Headers 12...	Taking crayfish
Utah Admi...	<i>Utah Admin. Code R657-13-15</i>
Paragraph ...	Fishing for crayfish (also called “crawdads”) is a fun activity for the whole family.
Paragraph ...	If you’re under the age of 14, you do not need a license to fish for crayfish. If you’re 14 years of age or older, you must have a valid Utah fishing or combination license to fish for crayfish. You may take crayfish for personal, noncommercial purposes at any body of water where there’s an open fishing season. You may not take crayfish if the fishing season at that water is closed, however.
Paragraph ...	You may take crayfish by hand or with a trap, dipnet, liftnet, handline, pole or seine. You must also obey the following rules:
Bullets	you may not use game fish or their parts for bait, or use any substance that is illegal for fishing;
Bullets	seines (nets) may not exceed 10 feet in length or width;
Bullets	you may not use more than five lines, and not more than one of those lines can have hooks attached to it (on the lines without hooks, simply tie your bait to the line so the crayfish can grasp

	the bait with its claw); and
Bullets	you may not transport live crayfish away from the body of water where you captured them.
Headers 12...	Prohibited fish
Utah Admi...	<i>Utah Admin. Code R657-13-13</i>
Paragraph ...	The following nongame fish are prohibited, which means you can't take them or hold them in your possession. If you catch any of these fish, you must release them immediately:
Bullets	Bonytail (<i>Gila elegans</i>)
Bullets	Bluehead sucker (<i>Catostomus discobolus</i>)
Bullets	Colorado pikeminnow (formerly, Colorado squawfish) (<i>Ptychocheilus lucius</i>)
Bullets	Flannelmouth sucker (<i>Catostomus latipinnis</i>)
Bullets	Gizzard shad (<i>Dorosoma cepedianum</i>)
Bullets	Grass carp (<i>Ctenopharyngodon idella</i>)
Bullets	Humpback chub (<i>Gila cypha</i>)
Bullets	June sucker (<i>Chasmistes liorus</i>)
Bullets	Least chub (<i>Iotichthys phlegethontis</i>)
Bullets	Leatherside chub (<i>Snyderichthys copei</i>)
Bullets	Razorback sucker (<i>Xyrauchen texanus</i>)
Bullets	Roundtail chub (<i>Gila robusta</i>)
Bullets	Virgin chub (<i>Gila seminuda</i>)
Bullets	Virgin spinedace (<i>Lepidomeda mollispinis</i>)
Bullets	Woundfin (<i>Plagopterus argentissimus</i>)
Headers 12...	Taking nongame fish
Utah Admi...	<i>Utah Admin. Code R657-13-14</i>
Paragraph ...	If you have a valid Utah fishing or combination license, you can take nongame fish for personal, noncommercial purposes as long as you're fishing at a body of water during its open fishing season. The only exceptions to this rule are the following:
Bullets	You may not take any fish that is designated as prohibited. A list of the fish that are prohibited in Utah is found in the Prohibited Fish section that precedes this section.
Bullets	Carp are the only nongame fish you may take in the following waters (you may take carp in these waters by angling, archery [excluding crossbows], spear or underwater spearfishing):
Bullets Sub	San Juan River;
Bullets Sub	Colorado River;

Bullets Sub	Green River (from the confluence with the Colorado River upstream to the Colorado state line in Dinosaur National Monument);
Bullets Sub	Green River (from the Colorado state line in Brown's Park upstream to Flaming Gorge Dam, including Gorge Creek, a tributary that enters the Green River at Little Hole);
Bullets Sub	White River (Uintah County);
Bullets Sub	Duchesne River (from the Myton SR-40 bridge) to the confluence with the Green River;
Bullets Sub	Virgin River (Main stem and the North and East Forks).
Bullets Sub	Ash Creek;
Bullets Sub	Beaver Dam Wash;
Bullets Sub	Fort Pierce Wash;
Bullets Sub	La Verkin Creek;
Bullets Sub	Santa Clara River (Pine Valley Reservoir downstream to the confluence with the Virgin River);
Bullets Sub	Diamond Fork;
Bullets Sub	Thistle Creek;
Bullets Sub	Main Canyon Creek (tributary to Wallsburg Creek);
Bullets Sub	South Fork of Provo River (below Deer Creek Dam); and
Bullets Sub	Snake Valley waters (west and north of US-6 and the part of US-6 and US-50 in Millard and Juab counties).
Paragraph ...	You may take nongame fish, EXCEPT those listed in the Prohibited Fish section on page 11, by angling, traps, archery (excluding crossbows), dipnets, liftnets, seine and spear. Underwater spearfishing for nongame fish is only allowed at the waters listed in the Underwater Spearfishing section on page 10.
Paragraph ...	In addition, when fishing for nongame fish, please remember the following rules:
Bullets	Seines (nets) may not exceed 10 feet in length or width.
Bullets	Cast nets may not exceed 10 feet in diameter (a 5-foot radius).
Bullets	Nongame fish that are legal to take must either be released or killed immediately after you remove them from the water. You may not leave them on the shoreline.
Bullets	Carp may be taken with spearfishing techniques in any water during its open fishing season.
Headers 12...	Taking brine shrimp
Utah Admi...	<i>Utah Admin. Code R657-52</i>
Paragraph ...	Many people who visit the Great Salt Lake want to take some brine

shrimp from the lake home with them. Brine shrimp may be taken without a fishing license from the lake, but you may not take more than one gallon in a seven-day period.

Paragraph ...

HEADER...

POSSESSION AND TRANSPORTATION

Intro Parag...

Once you've taken a fish or crayfish, several rules apply to the use of the fish or crayfish you've taken.

Headers 10...

Dead fish and crayfish

Utah Admi...

Utah Code § 4-37-305 and Utah Admin. Code R657-13-16

Paragraph ...

At all waters except Strawberry Reservoir, Panguitch Lake and Jordanelle Reservoir, game fish may be dressed, filleted, have heads and /or tails removed, or otherwise be physically altered after completin the act of fishing or reaching a fish cleaning station, camp, or principal means of land transportation. It is unlawful to possess fish that have been dressed or filleted while engaged in the act of fishing. This shall not apply to fish that are processed for immediate consumption or to fish held from a previous day's catch. At Strawberry Reservoir, Panguitch Lake and Jordanelle Reservoir (smallmouth bass only) all fish held in possession oin the field or in transit shall be kept in such a manner that:

Paragraph ...

the species if fish can be readily identified:

Paragraph ...

the number of fish can be readily counted;

Paragraph ...

the size of the fish can be readily measured.

Paragraph ...

Trout and salmon taken at Strawberry Reservoir and Panguitch Lake, and smallmouth bass taken at Jordanelle may not be filleted and the heads or tails may not be removed.

Paragraph ...

If you have a valid fishing or combination license, a legal limit of game fish or crayfish can accompany you as you travel within Utah or as you leave Utah.

Paragraph ...

You may possess or transport a legal limit of game fish or crayfish caught by another person if you have a donation letter from that person (please see the Donating section on this page for more information.)

Paragraph ...

In Utah, the fishing bag and possession limit is the same. For example, once you've harvested a limit of trout you cannot harvest any more trout until you've consumed or donated at least some of

the trout you've harvested. For example, if you eat one trout, you can catch one more the next day; if you eat a full limit, you can catch a full limit the next day, etc.

Paragraph ...

You may possess or transport dead fish if you have a receipt from a registered commercial fee fishing installation, a private pond owner or a short-term fishing event. The receipt must specify:

Bullets

the species and number of fish;

Bullets

the date caught;

Bullets

the certificate of registration number of the installation, pond or short-term fishing event; and

Bullets

the name, address and telephone number of the seller.

Paragraph ...

To help prevent the spread of disease, dead fish and crayfish should not be moved between waters.

Headers 10...

Live fish and crayfish

Utah Admi...

Utah Code § 23-13-14 and Utah Admin. Code R657-13-17

Bullets

You may not release fish or crayfish into the wild except as provided in the Wildlife Code. For example, you can release fish caught at Scofield Reservoir back into Scofield, but you cannot take live fish from Scofield and place those fish in another water. Any person who moves live fish from one body of water to another is guilty of a class A misdemeanor.

Bullets

You may use live fish stringers, live wells or hold-type cages to hold fish or crayfish while fishing on the water where you caught them.

Bullets

A trout, salmon or grayling may not be released if it's been held on a stringer or in a fish basket, live well or any other type of device.

Bullets

You may not transport live fish or crayfish away from the water where they were taken.

Headers 10...

Release of tagged or marked fish

Utah Admi...

Utah Admin. Code R657-13-18

Paragraph ...

You may not, without prior authorization from the Division:

Bullets

tag, mark or fin-clip fish for the purpose of offering a prize or reward as part of a contest;

Bullets

introduce a tagged, marked or fin-clipped fish into any water in the state; or

Bullets

tag, mark or fin-clip a fish and return it to the water.

Disposal of aquatic wildlife

Utah Admi...	<i>Utah Code § 23-20-9</i>
Headers 10...	<i>Donating</i>
Paragraph ...	The following are the only places where you may donate or give protected aquatic wildlife or their parts to another person:
Bullets	The residence of the donor
Bullets	The residence of the person receiving protected aquatic wildlife or their parts
Bullets	A meat locker
Bullets	A storage plant
Bullets	A meat processing facility
Paragraph ...	A written statement of donation must be kept with the protected aquatic wildlife or parts showing:
Bullets	the number and species of protected aquatic wildlife or parts donated;
Bullets	the date of donation;
Bullets	the license or permit number of the donor; and
Bullets	the signature of the donor.
Headers 10...	<i>Purchasing or selling</i>
Utah Admi...	<i>Utah Code § 23-20-3</i>
Paragraph ...	You may not purchase or sell protected aquatic wildlife or their parts except as provided in the Wildlife Code, rule, proclamation or order of the Wildlife Board.
Headers 10...	<i>Wasting</i>
Utah Admi...	<i>Utah Code § 23-20-8</i>
Paragraph ...	You may not waste any fish or crayfish or permit them to be wasted or spoiled. (Waste means to abandon a fish or crayfish or allow it to spoil or be used in a manner not normally associated with its beneficial use. For example, using the meat of game fish as fertilizer or for trapping bait is not considered a beneficial use of the meat.)
Headers 12...	Season dates and
Headers 12...	bag and possession limits
Utah Admi...	<i>Utah Admin. Code R657-13-19</i>
Paragraph ...	The following section provides general rules for fishing in Utah. Many waters have localized and specific rules. These rules can be found in the Rules for Specific Waters section beginning on this page.
Paragraph ...	On waters that have a specific rule, the specific rule takes

precedence over the general rules that follow:

Headers 10...

Closed areas

Paragraph ...

All of the state's fish hatcheries are closed to fishing. All of the state's waterfowl management areas are also closed to fishing unless they're posted open to fishing or they're listed as open to fishing in the Rules for Specific Waters section of this guide.

Headers 10...

Season dates

Paragraph ...

Utah's general fish and crayfish season is January 1 through December 31, 2008. Fish may be caught 24 hours a day.

Headers 10...

Bag and possession limits

Bullets

Any trout, salmon or grayling that is not immediately released and that's held in your possession, whether the fish is dead or alive, is part of your bag and possession limit.

Bullets

A trout, salmon or grayling may not be released if it's been held in or on a stringer, fish basket, livewell or by any other device.

Bullets

Any fish that doesn't meet the size, bag or species rules for the water you're fishing at must be returned to the water immediately.

Bullets

in Utah, the bag and possession limit is the same. For example, once you've harvested a limit of trout you cannot harvest any more trout until you've consumed or donated at least some of the trout you've harvested. For example, if you eat one trout, you can harvest one more the next day; if you eat a full limit, you can harvest a full limit the next day, etc.

Bullets

You may not fish at waters that have a specific bag or size limit if you possess fish in violation of that limit. For example, if the cutthroat trout limit at a river you'd like to fish is two cutthroats, and you harvested three cutthroats earlier that day at another water, you can't fish at that river until you consume or donate at least one of the cutthroats you harvested earlier.

Bullets

Residents and nonresidents who are under 12 years of age may fish without a license and take a full bag and possession limit.

Bullets

The following fish bag and possession limits apply statewide, except as provided in the Rules for Specific Waters and Underwater Spearfishing sections of this guide:

Bullets Sub

Bluegill and green sunfish in the aggregate*

Bullets Sub

Bonneville cisco

Bullets Sub

Bullhead

Bullets Sub

Bullets Sub Sacramento perch

Bullets Sub Striped bass

Bullets Sub Trout, including salmon, grayling and hybrids in the
aggregate, except no more than two can be lake trout/
mackinaw. Also, you can take extra brook trout at some
waters in the state.*

Bullets Sub Walleye*

Bullets Sub Whitefish*

Bullets Sub White bass

Bullets Sub Wiper*

Bullets Sub Yellow perch*

Paragraph ... *On some waters, specific bag or size restrictions apply. Please
see the Rules for Specific Waters section below for variations.

DEFINITIONS

Utah Code § 23-13-2 and Utah Admin. Code R657-13-2

Aggregate means the combined total of two or more species of fish or two or more size classes of fish which are covered by a limit distinction (i.e., trout and salmon in the aggregate).

Angling means fishing with a rod, pole, tip-up, handline or troll board that has a single line with legal hooks, baits or lures attached to it, and is held in the hands of, or within sight (not to exceed 100 feet) of the person fishing.

Artificial fly means a fly made by the method known as fly tying. Artificial fly does not mean a weighted jig, lure, spinner, attractor blade or bait.

Artificial lure means a device made of rubber, wood, metal, glass, fiber, feathers, hair or plastic with a hook or hooks attached. Artificial lures (including artificial flies) do not include fish eggs or other chemically treated or processed natural baits or any natural or human-made food, or any lures that have been treated with a natural or artificial fish attractant or feeding stimulant.

Bag limit means the maximum limit, in number or amount, of protected wildlife that one person may legally take during one day.

Bait means a digestible substance, including worms, cheese, salmon eggs, marshmallows or manufactured baits including human-made items that are chemically treated with food stuffs, chemical fish attractants or feeding stimulants.

Chumming means dislodging or depositing in the water any substance not attached to a hook, line or trap, which may attract fish.

Paragraph ...	Dipnet means a small bag net with a handle that is used to scoop fish or crayfish from the water.
Paragraph ...	Fishing means to take fish or crayfish by any means.
Paragraph ...	Fishing contest means any organized event or gathering where anglers are awarded prizes, points or money for their catch.
Paragraph ...	Float tube means an inflatable floating device less than 48 inches in any dimension, capable of supporting one person.
Paragraph ...	Free Shafting means to release a spear that is not tethered or attached by physical means to the diver in an attempt to take fish while engaged in underwater spearfishing.
Paragraph ...	Gaff means a spear or hook, with or without a handle, used for holding or lifting fish.
Paragraph ... UTAH'S BOATING LAWS AND RULES

Paragraph ...

Boaters have the responsibility to practice and advocate safe and ethical use of our waterways. This responsibility includes properly registering and insuring boats, learning and obeying boating safety laws and rules, and sharing waterways with other boaters, swimmers and anglers. Visit stateparks.utah.gov/boat for more information.

RESPONSIBLE OHV USE

Paragraph ...

A new website offers off-highway vehicle riders a wealth of information including maps, forums, photos, course information and more.

Paragraph ...

While most OHV users are responsible, misuse results in disturbance to wildlife, damage to wildlife habitat and personal injury. Responsible OHV use requires riders to avoid closed or restricted areas, respect wildlife and wildlife habitat, obey helmet regulations and observe OHV operator age restrictions and regulations.

Paragraph ...

To help you protect your privilege, you can now log on to utahohv.org. On this new site, you can post questions, weigh in on current discussions, and represent your views to the rest of the OHV community. You can also find clubs and organizations, submit your photos, and learn ways to ensure access to wildlife on public land for future generations.

3. Share your idea at your Regional Advisory Council meeting in May. Meeting dates, times and locations are available online at *wildlife.utah.gov/public_meetings*.

Paragraph ...

Paragraph ...

DWR fisheries biologists will finalize their fishing recommendations for the 2009 season early this summer. Please send or share your idea with them before June 1 so they'll have time to consider your idea as they finalize their recommendations. Suggestions received after June 1 may not be considered until the May 2009 RAC informational meetings are held to consider recommendations for the 2010 fishing season.

Paragraph ...

Paragraph ...

The biologists will present their final fishing recommendations for the 2009 fishing season at RAC meetings held across Utah in September. The DWR encourages you to attend your RAC meeting to learn more about the final recommendations and to provide your comments. Your input will be taken to the Utah Wildlife Board when it meets in October to approve Utah's 2009 Fishing Guide.
